PROFESSIONAL SUMMARY

Full-stack developer and BICT (Hons) undergraduate with project experience in React, Node.js, Express.js, MongoDB, PHP and MySQL. Built web authentication flows, e-commerce features and responsive interfaces, with additional JavaFX team project experience. Seeking a junior full-stack developer or software engineering internship role.

TECHNICAL SKILLS

Languages: JavaScript, Java, PHP, SQL, HTML5, CSS3

Frontend: React, Redux Toolkit, Tailwind CSS, Bootstrap, jQuery

Backend & databases: Node.js, Express.js, Spring Boot, MongoDB, MySQL

Tools & concepts: Git, GitHub, Vite, Maven, JavaFX, REST APIs, JWT, OOP

PROJECT EXPERIENCE

Saga Elite | Full-Stack Developer & Team Lead

MERN Stack | saga-elite.shop | Team project

- Led a team of four to build and deploy an e-commerce platform, from requirements analysis to release.
- Developed customer and administrator features for product management, JWT authentication and order handling; coordinated GitHub branching workflows.

Faculty Event Management System | Co-Contributor

Spring Boot, React, MySQL, JWT, Cloudinary | Team project

- Contributed to an event platform with administrator, lecturer and student roles and event approval workflows.
- Implemented JWT-protected REST APIs, scheduled email reminders and image uploads; collaborated through pull requests and code review.

NEXTGEN | Mobile Shop E-Commerce Website

PHP, MySQL, JavaScript, jQuery, Bootstrap

- Developed a mobile shop website with product browsing, user accounts, shopping cart and checkout workflows.
- Built administrative pages for managing products, orders and customers, backed by a MySQL database.

Nano-Zillas | University Management System (Team Project)

Java, JavaFX, FXML, MySQL, Maven

- Contributed to a JavaFX application with role-specific interfaces for university staff and students.
- Applied OOP and MVC to modules for courses, attendance, grades and timetables.
